---

Agile learner with a unique blend of analytical rigor and data proficiency, transitioning into a Frontend Developer role. Second-Class Honors Science graduate with proven leadership skills and experience in cross-functional collaboration. Highly motivated to apply strong problem-solving abilities and modern web development technologies to build responsive, user-friendly applications in a challenging environment.

## Education

**Chulalongkorn University** **Bangkok**
*Bachelor of Science in Geology* *2021 – 2025*
*Faculty of Science | GPAX: 3.47 (Second-Class Honors)*

## Projects

**DevPortfolio - Personal Developer Portfolio**
*Next.js 16, React 19, TypeScript, Tailwind CSS v4*
- *Designed a highly responsive personal portfolio using modern web technologies to showcase professional projects and technical skills.*
- *Built a dynamic, data-driven rendering system that fetches content from a local JSON structure for scalable and effortless updates.*
- *Utilized "@radix-ui/react-slot" for accessible component architecture and "tailwind-merge/clsx" for dynamic utility class management.*

**SkillFrameX - Online Learning Platform**
*Next.js, TypeScript, Tailwind CSS, React*
- Developed a modern, responsive online learning platform focusing on seamless user experience for browsing courses and tracking progress.
- Implemented a robust filtering system using "useSearchParams" for dynamic search and category selection with shareable URLs.
- Integrated custom React hooks "(useProgress)" to manage enrollments and calculate real-time course completion percentages.
- Optimized initial page load performance by utilizing asynchronous concurrent data fetching "(Promise.all)".

**SALTY - E-commerce Website**
*HTML, CSS, Vanilla JavaScript*
- Engineered a fully responsive e-commerce frontend from scratch without external frameworks, demonstrating strong core web development skills.
- Built a dynamic routing system using "URLSearchParams" to handle product searches, filtering, and detailed views from a JSON dataset.
- Developed a persistent Shopping Cart system leveraging browser "localStorage" for cross-session state management.
- Designed a mobile-first UI using CSS Grid, Flexbox, and CSS Variables for consistent maintainability.

## Certifications

- **TOEIC:** 650 (Listening 360, Reading 290)
- **EF SET English Certificate:** C1 Advanced

## Technical and Analytical Skills

- **Programming and Mockup Language:** Python, JavaScript, TypeScript, SQL
- **Mockup Language:** HTML, CSS, TailwindCSS, Bootstrap
- **Programming Tool:** Git, GitHub, VS Code, MySQL, React, Next.js, Vue
- **Data Analysis Software:** Microsoft office (Excel, PowerPoint, Word), Power BI, ArcGIS, QGIS, Petrel, Petro Mod, ERDAS IMAGINE
